

## Summary for children and young people

Name: The Adoption Consultancy 360 Ltd

URN: 1226271

Date of inspection: 30 April 2019

Dear children and young people

My colleague, Sarah Canto, and I visited the Adoption Consultancy to make sure that you and your families are receiving a safe, high-quality service.

We found that the Adoption Consultancy makes a very big difference to lots of children's lives. They provide different types of therapeutic support, including occupational therapy, play therapy and psychological help. This flexibility gives children and parents a really good choice.

We really enjoyed speaking with your parents, who were full of praise for the service. It was particularly nice to receive an email from a young person who feels that she has benefitted greatly from therapy, which helped her to face a very challenging situation.

We enjoyed hearing about how the agency has developed over the past two years, since the last inspection. There are more therapists and there is extra administrative support, to help everything run smoothly.

Everyone who works for The Adoption Consultancy is very well trained and supported. This makes it possible for them to provide you and your families with really high-quality therapy.

The Adoption Consultancy occupational therapists have been working with a local children's home to make it a much more attractive place for children and staff. The home now has a sensory room, which will provide a calming and relaxing place for children and young people to enjoy. Other improvements to the home are planned.

We were impressed with the therapists' and managers' total commitment to you and your families. Children are at the heart of everything they do.

We would like to thank those of you who helped with our inspection. We hope that you all have a lovely summer with your families.

Best wishes

Heather Chaplin  
Ofsted social care inspector.
